The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restriction

Review of applicant's last response has illuminated the fact that the claimed invention of 18-21 is actually completely distinct from the other claims, and requires a completely different search. Therefore, the application is restricted to the following groups

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 18-21 and are drawn to a method of making a liquid crystal device, classified in class 349, subclass 187.
 - II. Claims 1-18 and 22-24 are drawn to a device with a liquid crystal in a groove, classified in class 349, subclass 194.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II (claims 1-18) are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product can be made by a materially different process, for example the cholesteric can be polymerized by heat (or not polymerized), or a non-mirror polished surface of the substrate can be used.

Inventions I and II (claims 22-24) are related as distinct mutually exclusive species.

2. Because these inventions are distinct for the reasons given above and have acquired a

separate status in the art as shown by their different classification, and the substantial non-overlapping searches, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and substantial non-overlapping searches, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth Parker whose telephone number is (703) 305-6202.
